# iPad/ForeFlight Preflight Checklist

☐ **FOREFLIGHT APP UP TO DATE**

*Check the App Store to verify you have the latest version of ForeFlight installed.*

☐ **FOREFLIGHT OPENS & FUNCTIONS NORMALLY**

*Open and run ForeFlight to make sure the app is functioning normally.*

☐ **CHARTS & DATABASES DOWNLOADED AND CURRENT**

*Check the Downloads section of ForeFlight to verify all required charts are downloaded and current.*

☐ **ROUTES, AIRPORTS, AND BINDERS LOADED**

*Set favorite airports, routes and chart binders as required for the flight.*

☐ **IPAD BATTERY CHARGED**

*Ensure the iPad battery has enough charge to meet the requirements of the flight.*

☐ **GPS OR ADS-B RECEIVER BATTERY CHARGED**

*Ensure adequate charge on your wireless receiver's battery.*

☐ **BACKUP POWER OR CHARGING CABLES AVAILABLE**

*If required, ensure that a backup battery or charging cable is within reach.*

☐ **STORAGE/MOUNTING DEVICES AVAILABLE**

*Attach and secure required mounting devices (e.g. kneeboards, yoke mounts, etc.)*

☐ **CONFIGURE WIRELESS RADIOS**

*Set Airplane Mode, Bluetooth, Wi-Fi and Cellular Data to ON/OFF as required.*

☐ **SET IPAD SCREEN BRIGHTNESS**

*Clean the iPad screen and dim the screen brightness to conserve battery.*

☐ **CLOSE ALL APPS NOT BEING USED**

*Consider restarting the iPad and restarting ForeFlight to get a fresh, clean start.*
